OK, that makes sense for the R6 settlements.

Btw, I asked Greg S earlier this morning about making sure that word is conveyed to the regional folks that WF is in discussions on a national settlement.

I'll have more on penalty in the coming days, but I thought I'd share with you

I plan to send an email at some point today to WF to confirm meeting for this Friday – I didn't get an invite, etc. – I want to avoid any mix up. I was also thinking of gauging how far along they are on the review of the draft CAFO, specifically the areas we discussed during the call last week. My hope is that they get a redline to us before the Friday meeting so we can go over their proposed edits and get a sense of where they are heading re: what's CBI v. details open to public. Yes, please do that.

With regard to penalty, I'll crunch some numbers today and tomorrow –

These are just some of my thoughts re: next steps. Let me know what you think. Is there anything I'm missing? Not at this point, no.
